 - A. Upon arrival at the NAILE, exhibitors must pick up a weight card for each of their entries at Swine Superintendents office.
 - B. Two practice scales will be available for exhibitors to use to determine the weight of their market hog. One scale will be designated for use by exhibitors with purebred market hogs, and one scale will be designated for use by exhibitors with crossbred market hogs. The scale designated for use with purebred market hogs will be used as the official scale for weigh-backs during purebred show classes, and the scale designated for use with crossbred market hogs will be used as the official scale for weigh-backs during crossbred show classes. The weight the exhibitor will declare for their market hog must be written on the weight card. All declared weights must be within the range of 230-280 pounds (THERE WILL BE ABSOLUTELY NO VARIATION FROM THIS WEIGHT RANGE).

C. Beginning at 9:00 a.m. on Saturday, November 5, exhibitors will bring their weight card (with the declared weight filled in on the card) and their market hog to a designated area where show management will place a paint number and tattoo on the market hog. There will be two paint/tattoo areas, one for purebred entries and one for crossbred entries. All Exhibitors must bring a copy of their health papers and PQA Plus Program Certification Card to the paint/tattoo area, and exhibitors of purebred entries must also bring their registration papers to the paint/tattoo area. Grade will be established by representatives selected by the North American International Livestock Exposition.

19. **Weight – 230 pounds to 280 pounds**
 Exhibitors will declare weights for their market hog entries. All declared weights must be within the range of 230-280 pounds (THERE WILL BE ABSOLUTELY NO VARIATION FROM THIS WEIGHT RANGE). All entries will be divided into equal sized classes based on declared weights with approximately 20-25 animals in each class.

20. As each class enters the show ring, pigs selected by the judge to be placed will immediately be weighed on the official scales in the show ring by show officials (all selected animals will be weighed prior to determination of an official placing for the class). Each pig must be within 5% above or below its declared weight. If any pig is out of its weight range, it will be disqualified from the show. The disqualified pig is not eligible for any other on-foot class and will not be reweighed.

21. The crossbred classes will be split into three (3) divisions - Light, Medium and Heavy - ROSETTES for Division Champions and Reserve Champions.
